

ICS-213 MESSAGE FORM

Why ICS-213?

WebEOC? What's That?

It's the management software used by NCEM and all other EM agencies in NC.

ICS-213 is the standard Message Form used in WebEOC.

So, What Does WebEOC have to do with us?

At the State EOC and Wake EOC, we read messages from the WebEOC screen and transmit it. We enter messages received by radio directly into the WebEOC on-line form.

If you're not already using WebEOC in your jurisdiction, get ready – you will do so in the near future.
